Once I wrote the file with MS Word and saved as.docx the file had no problem and I could reimport it. After a four-day wait, health officials announced Wednesday the remains of a person whose mysterious death some believed was related to a Google glass product are now known to be human. The person's body was found earlier this month in an area near Highway 24 and Tramp Avenue in Redding, located about 75 miles east of San Francisco. At the time of his death, police believed the man had passed away of natural causes but that his death was suspicious in nature. "The death is definitely not a homicide,"

In particular, it relates to a method of recording a visible image of a subject by means of a silver halide emulsion as a photograph sensitive material. It is known to form a visible image of a subject, by means of a silver halide photographic material, by exposing the photographic material to light emanating from a subject to be photographed to form a latent image, and then subjecting the photographic material to development and other appropriate treatments to form a visible image thereon. As a method of forming a visible image by means of a silver halide photographic material, it is general practice to use silver halide Occ13bf012

RULE: You can use the following command in the terminal to check the latest Ubuntu version: sudo apt-get dist-upgrade -y. There are two types of 3rd party repositories that can be installed on your Ubuntu system: (1) PPA, and (2) Ubuntu Software Center. The PPA (Personal Package Archive) contains third-party software packages. Each PPA (Personal Package Archive) contains one or more .deb files. The Ubuntu Software Center is a graphical front-end of the Ubuntu Software Repository. To add a PPA from the command line type the following: sudo add-apt-repository ppa:USER_NAME/PPA_NAME sudo apt-get update In this case, since we are interested in installing the MongoDB packages, replace USER_NAME and PPA_NAME with your own username and add a PPA as follows: nima@poe-Ki/Desktop:~\$ sudo add-apt-repository ppa:ubuntu-toolchain-r/test nima@poe-Ki/Desktop:~\$ sudo apt-get update nima@poe-Ki/Desktop:~\$ sudo apt-get install mongodb mongodb-server mongodb-clients The following NEW packages will be installed: mongodb mongodb-server mongodb-clients 0 upgraded, 3 newly installed, 0 to remove and 0 not upgraded. Need to get 148 kB of archives. After this operation, 445 kB of additional disk space will be used. Do you want to continue? [Y/n?] nima@poe-Ki/Desktop:~\$... Installation of the MongoDB packages is done! Finally, you can type this command to make sure that MongoDB packages are enabled and running on your system: nima@poe-Ki/Desktop:~\$ sudo service mongodb start mongodb status mongodb stop/waiting mongodb start/running, process 4907 In our example, MongoDB packages were installed and started with the following command: nima@poe-Ki/Desktop:~\$ sudo service
